

**08 — 14  
JUNE 2023  
MILAN . ITALY**

**TRANSFORMING  
THE WORLD  
OF TEXTILES**

## **Be Part of the Game-Changing Advanced Material Showcase**

### **Advanced Materials: One of the 4 key pillars at ITMA 2023**

Innovation is a critical driver in the creation of new advanced materials to meet the challenging demands of commercial users seeking an edge in superior performance and competitive cost.

The global technical textile market is projected to grow 4.8% to reach US\$232 billion by 2027\*. Seize the opportunity to showcase your capabilities in next-generation materials for high-value applications to buyers from around the world at ITMA 2023.

In addition, if you are looking to collaborate with machine technology manufacturers to innovate new products and material applications at scale, ITMA is where the action is. Apply to take part in ITMA 2023 now.

## Hear from Our Exhibitor

*"Lenzing has been a part of ITMA since the launch of the fibre and yarn chapter in 2011. Since then, ITMA has become an important exhibition for us as it gives us a chance, as a fibre producer, to meet a broader audience. We were able to reach a wide variety of visitors sourcing for different solutions, from apparel to technical textiles. We will be back at ITMA 2023!"*

**Gabriele Emlinger**  
Regional Director TCS Europe & Americas and FPU  
Lenzing AG, Austria

## Fresh Read from ITMA Blog

All the pieces are in place for the rapid growth of digital textile printing in the next 20 years. It is predicted that from a 7% share of the overall textile printing market in 2021, digital printing will climb to 40% in 2040...

*Peter Buttiens, CEO  
ESMA – The European Specialist  
Printing Manufacturers Association*
