  - The ACIMIT and the Italian Trade Agency are setting up a dedicated pavilion at TITAS Taipei.
- 

A delegation of Italian textile machinery companies is set to attend the 2023 edition of the Taipei Innovative Textile Application Show (TITAS), which will be held in Taipei, Taiwan, from October 17–19, 2023. Taiwan is a very promising market for the Italian textile machinery industry, especially in the innovative sectors of technical textiles and nonwovens.

In 2022, Italian exports to the Asian country exceeded the value of €17 million, and in the period January-June 2023, the value has already reached €7 million. The attention for the Taiwanese market has led the Association of Italian Textile Machinery Manufacturers (ACIMIT) and Italian Trade Agency to set up a pavilion at the upcoming edition of TITAS Taipei.

Six Italian textile machinery manufacturers, Ferraro, Danitech, Lgl, Ms Italy, Reggiani, Unitech, which are also ACIMIT member companies, will exhibit in the pavilion.

At the upcoming TITAS Taipei, visitors will be introduced to Italian technology, once again a key player in the textile production process.
