MR. MURTAZA Y. MANDVIWALLA
CHAIRMAN
PAKISTAN JAPAN BUSINESS FORUM

Congratulations to Mr. Saleem Khan Tanoli and the Fakt Team on the successful organizing of the 2025 IGATEX PAKISTAN.

In today's challenging Economic and Business environment, the need for the Textile Sector to upgrade to more value addition with newer processes and technologies is vital to Pakistan's export growth. And IGATEX provides the investors, buyers and sellers an excellent platform.

Japan has historically played a significant role in the growth of the Textile sector of Pakistan by providing versatile machinery, production management training and development of quality finished goods. Japanese companies continue to engage actively with their Pakistani partners.

Pakistan Japan Business Forum (PJBF) with a significant membership from the textile sector facilitates business between the two nations and is a catalyst in the development of stronger business ties. PJBF works closely with JETRO, JICA and its counterpart in Japan, JPBCC.

PJBF wishes the participants a success at IGATEX.

Mr. ZULFIQAR ALI CHAUDHRY
CENTRAL CHAIRMAN
ALL PAKISTAN TEXTILE PROCESSING MILLS ASSOCIATION

I extend my heartfelt appreciation to the entire IGATEX PAKISTAN team and all participating exhibitors for their unwavering dedication over the past 23 years. Their continued efforts in promoting innovation, technological advancement, and international collaboration within the textile sector stand as a testament to their vision and perseverance.

It is no exaggeration to say that IGATEX PAKISTAN has become a cornerstone of industrial progress, a true service to both the nation and the textile industry at large.

The scale and caliber of the event are indeed impressive, and I commend Mr. Saleem Khan Tanoli's leadership in curating such an impactful platform year after year. I look forward to engaging with the esteemed exhibitors and stakeholders whose contributions continue to shape the future of our industry.

Mr. MAHMOOD NARA

CHAIRMAN

PAKISTAN KNITWEAR & SWEATER EXPORTERS ASSOCIATION

It pleases me to learn that Fakt Exhibitions (Pvt) Ltd., is organizing the most awaited event “IGATEX PAKISTAN” – International Garment, Textile Machinery & Accessories Exhibition at Karachi Expo Centre from 24th to 26th April 2025 well in accordance with their past traditions and fervor.

Our Association is supporting them in their efforts to introduce high level garment & textile machinery and accessories as well as newest expertise and their improvise trade benefits. Adding value to our country’s exports by increasing worth of our local products has resulted in vast business opportunities. I sincerely hope and believe that it would have positive impact on the economic well-being of our country.

I wish them Godspeed!

MR. SALEEM KHAN TANOLI
CHIEF EXECUTIVE OFFICER
FAKT EXHIBITIONS (PVT.) LTD.

I am pleased to announce that IGATEX PAKISTAN - International Garment, Textile Machinery & Accessories Exhibition and will take place at the Karachi Expo Centre from the 24th to the 26th of April, 2025.

As region's foremost and largest event of its kind, IGATEX PAKISTAN will host over 450 exhibiting companies from around 30 countries including Austria, Belgium, France, Germany, Japan, Korea, Pakistan, Spain, Switzerland, UK, USA etc. and pavilions from China, Italy, Türkiye. This year, attendees can look forward to a variety of innovative and versatile machinery models making their debut.

IGATEX PAKISTAN is renowned not only for showcasing the latest advancements in textile technology but also for enhancing trade opportunities, attracting foreign investment, and facilitating business interactions with international delegates. The tradeshow has been instrumental in introducing cutting-edge textile technology, machinery, and equipment, which has significantly boosted the value of our exports and positively impacted the economic well-being of Pakistan's textile industry.

This year marks 23 years of IGATEX PAKISTAN, an event that continues to grow in importance and scale, setting new records annually. Finally, I extend my heartiest thanks to our exhibitors and partners for their unwavering support, in making this event a grand success.

EXHIBITORS PROFILE

~A~

A.C.T AIR COMPRESSOR TECHNOLOGY

Address: A.C.T House, 81-A Revenue Society, Near Ali Park,
Johor Town Lahore

PAKISTAN

Tel: 92 423 540 01 82-3

Tel: 2 92 423 5400185

Fax: 92 423 5400184

Mobile: 0310-4440501

Email: imran@actcompressors.com

Website: www.actcompressors.com

Contact Person: IMRAN AZEEM

Company Description:

Wherever you have the need for a compressed Air, A.C.T AIR COMPRESSOR TECHNOLOGY has the solution. Using its engineering competence and technical expertise. A.C.T AIR COMPRESSOR TECHNOLOGY is dedicated to providing reliable, innovative, technologically advanced compressed air delivery and air treatment systems for today's demanding industrial applications. A.C.T AIR COMPRESSOR TECHNOLOGY is the sole representative of DEMAN CHINA SCREW COMPRESSOR AND MIKROPOR TURKEY REFRIGERATION AIR DRYERS (TURKEY), COMPRESSED AIR PARTS & SERVICES (CAPS) (U.K), PLUS MIKROPOR U.S.A in Pakistan.

FOREIGN PRINCIPAL

MIKROPOR MAKINA SANAYI VE TIC A.S

WEITMANN & KONRAD GMBH & CO. KG

Address: Friedrich-List-Straße 20-24, D-70771 Leinfelden-Echterdingen,

GERMANY

Tel-1: +49 (0) 711 798 80

Fax: +49 (0) 711 798 8114

Email: info@weko.net

Website: www.weko.net

Contact Person: Mr. M. Hofmann

Company Description:

WEKO specializes in the contactless minimum application of fluid and powder-based media to a wide variety of materials. With the systems used in the production process, significant savings of fresh water,

chemicals as well as energy can be achieved. This is a clear cost/benefit advantage for the user but especially for our environment. For this reason, we offer test series in the WEKO-Technology Center in order to check and implement the processes for the respective application in advance. High service standards are a matter of course for us.

In addition to its headquarters near Stuttgart, WEKO has two production sites in Germany and Brazil, its own sales and service offices in Italy, the UK, the USA and Brazil. In addition, WEKO cooperates worldwide with agencies that market the products and also offer the proven WEKO service standard.

Weitmann & Konrad GmbH & Co. KG is a family business and was entered in the Handelsregister in 1953. Today, Carlheinz Weitmann & Tobias Schurr are active as managing directors.

TAIZHOU DYEING & PRINTING

Address: 28 Baojiunanlu, Taizhou Economic Development Park,
Jiangsu

CHINA

Tel-1: +86 523 8684 1247

Email: tzyj@tzyj.com.cn

Website: www.tzyj.com.cn

Company Description:

Taizhou Dyeing & Printing Machinery Co., Ltd. is located in Jiangsu Taizhou Export Processing zone, which is the core region of Taizhou city for the development of economy. We take strict and pragmatic, honest business, technical innovations and Team work as the business idea. Relying on experienced technicians, leading technologies, first-class

management system and equipment, quality products and excellent service, we are working hard to provide pre-treatment, dyeing and finishing equipment (sets) and full-width wet treatment methods for the dyeing and printing enterprises of woven and knitting fabrics. At present, we are mainly producing all kinds of hi-tech products, including Singeing machines, pre-treatment equipment, pad-dyeing apparatus, and long-line washing apparatus, etc.

**ACCUMECH SPECIALIZED INDUSTRIAL MACHINERY & EQUIPMENT
MANUFACTURING**

Address: P.O. BOX 48308, Industrial Area 2, Jebel Ali, Dubai

UAE

Tel-1: +971 4884 2280

Email: info@cncaccumech.com

Website: <https://www.cncaccumech.com/>

Company Description:

Accumech is leading manufacturing CNC Machinery in Dubai, UAE. They produce Fiber Laser routers, Waterjet routers, CNC routers, Plasma routers. Their main markets has been Arabian Gulf, Middle East and Africa.

They have been the specialist for cutting steel / marble / brass, engraving wood & brass, cutting aluminum; and since 2017 they started offering water-jet stripping machines for Ni-screen of rotary printing machine, and have already supplied several successful projects in Pakistan as well.

BENNINGER AG

Address: Fabrikstrasse, 9240 Uzwil,

SWITZERLAND

Tel-1: +41 71 955 8585

Email: info@benningergroup.com

Website: www.benningergroup.com

Company Description:

Benninger develops and produces machines and systems for textile finishing and tire cord production. The machines and systems are an important link in the textile value chain and run as complete system solutions. Benninger has many years of experience in the automation of machines and systems which is also used successfully in other branches of industry.

They are the competent supplier of innovative solutions in the field of discontinuous textile dyeing machines. They are already known for perfect fabric quality that makes sure to produce the widest range of fabrics at lowest cost. The harmonic versatility and robustness of their machine systems guarantee absolute customer satisfaction. Following are the range of their discontinuous processing machines:

- FabricMaster
- JigMaster
- SynthMaster
- Beam Master
- DyeMaster
- HydroExtracting
- Labortory

ACIMIT - ASSOCIATION OF ITALIAN TEXTILE MACHINERY MANUFACTURERS

Address: ViaTevere, 1, 20123 Milano MI Italia.

Tel-1: +39 02 4693611

Email: info@acimit.it

Website: www.acimit.it

Contact Person: Valentina Butera

Company Description: ACIMIT - Association of Italian Textile Machinery Manufacturers, represents an industrial sector that comprises roughly 300 manufacturers (employing around 13,000 people), which produce machinery for an overall worth of around 2.3 billion euro, of which 86% are exported in about 130 Countries, mainly in Asia and Europe. Creativity, sustainable technology, reliability and quality are the hallmarks that have made Italian textile machinery worldwide leaders and the technological level of its production is considered of the highest standard by the competitors themselves.

Italian textile machinery manufacturers meet the full spectrum of industry needs (spinning, weaving, knitting, dyeing, finishing, printing and laundry machines). A lot of them produce machines for technical and innovative textiles too, maximizing the flexibility and versatility that characterize Italian supply.

Contact Person: Mr. Ariel Danez

Company Description:

Hanwha Power Systems is the global energy equipment company in South Korea with independent design, production, and testing capabilities. The diversity, quality and the advanced technology of our products have provided the highest value to our customers around the world.

After its establishment in 1977, Hanwha Power Systems launched its energy equipment business in 1997 on the strengths of its reliable technology and deep experience in gas turbine engines. Since then, we've become a global powerhouse and have delivered more than 8,000 units of air and gas compressors worldwide. Using advanced technology, we developed high-value-added product lines. Our product lines include industrial air compressors, fuel gas compressors for power plants, boil-off gas compressors for LNG terminals and plants.

Industrial air compressor line-up starts with 210 KW up to 2,350 KW with SM series & 150 KW up to 3,100 KW with SM100 series.

Company Description:

Almurtaza Machinery Company (Pvt.) Ltd. (AMCL) began operations in 1969, dedicated to bringing the latest concepts, technology and machinery to the apparel industry of Pakistan. Those were challenging times and AMCL took up the challenge and empowered the apparel industry with the technology, machinery and accessories imported from leading manufacturers all over the world. Visionary planning, professionalism, proactive attitude and practical solutions have made AMCL the runaway leader in its field

Today after more than 55 years, with its Head Office in Karachi and branch offices in Lahore, Faisalabad and Sialkot, AMCL commands a major share of the market. AMCL is divided into seven principal divisions:

1. Apparel
2. Embroidery
3. Home Textile
4. Laser Technology
5. Printing
6. Spares, Services and Accessories
7. Textile

Presently, AMCL represents the latest in machine and technology with more than Forty leading apparel machinery manufacturers from all over the world. Besides complete after sales advice support, our team of professionals extends support to start new apparel production units or rationalize existing factories.

PINTER GROUP SPAIN

Address: Ctra. Manresa a Santpedor, Km. 4,6 08251 - Santpedor, Barcelona,

SPAIN

Tel-1: +34 938 272727

Fax: +34 938 27 27 27

Email: j.torrent@pintergroup.net

Website: www.pintergroup.net

Contact Person: JOSEP TORRENT

Company Description:

The company develops its business in the field of textile machinery automation to specialize over the years in the production of slubbing devices and special machinery for fancy and colored yarns.

Pinter Starts The Manufacturing Of Its Own Products And Not Only Components. For example: Core Yarn and Slub attachments. These products will become the main business for the company in the following years.

CAIPO develops one of the first CAD for the Textile design and the representation and creation on paper of samples of fabric made on a loom with dobby. This product receives the Award of the Italian Ministry of Research and Development. In the same year, to give answer to the necessities of the Italian fancy spinners, the “Fancy Tops” machine is launched in the market. Fancy Tops is a special draw frames that plays with different colored slivers to create fancy roving. It is the first machine in the world with such features.

Pinter Activity Is By That Time Only Centered In The Core Yarn And Slubs Attachments where a great success is achieved due to the patented V-roller guide for the Lycra

Pinter Acquires Fa.Ni (Italy).

This company is specialized in the manufacture of detection systems, roving stop devices and monitoring systems. These systems complement perfectly with the Core yarn business Pinter

Pinter Merges with Caipo (Italy).

This company that was once a direct competitor becomes a partner and the slubs are renewed using the best of both technologies. The name of the company then becomes PINTER CAIPO, and PINTER GROUP is founded.

Pinter Group Acquires Softex (Italy).

This company is specialized in the development of software for monitoring systems. With this acquisition, the Pinter Group becomes very strong in this field and now it can offer a complete software suite not only for the spinning sector but also for the weaving and dyeing departments The Pinter Group Purchases The

Assets Of Amsler Tex AG (Switzerland) spare parts, patents, technical know-how and commercial files.

PINTER CAIPO ITALIA SRL

A merger by incorporation of the company PINTER FA.NI SRL into the company CAIPO AUTOMAZIONE INDUSTRIALE SRL took place and subsequently the company changed its corporate name to PINTER CAIPO ITALIA, SRL

Jeanologia is an innovative and multicultural company with over 20 years of experience in the development of sustainable and eco-efficient technologies for the finishing industry.

“We don’t want to be the best company in the world. We want to be the best company for the world”

The company was founded in 1994 by Jose Vidal and his nephew Enrique Silla, with innovation and human values as the primary columns. With a background in denim finishing consultancy, Jeanologia soon became a technology provider of sustainable textile solutions.

Today Jeanologia leads the transformation of the textile industry with its disruptive technologies (laser and eco systems) that enhance productivity, reduce water and energy consumption and eliminate damaging emissions and waste, guaranteeing ZERO contamination.

We are fashionistas & technocrats”

Textile industry needs sensitivity both towards the product (fashion and creativity) and technology (rigor and scientific mind). We have eliminated the barriers between the artistic and the scientific, between creativity and technology. We combine the talent of the creative and the scientific minds, creating multidisciplinary teams that work with passion towards our common objective of bringing sustainability to the finishing industry.

Company description:

Danitech, since its foundation, has kept faith with the original dream and goal: to design better and more complete solutions to meet the growing quality standards of textile products, with particular attention of the environment. Danitech was born from the idea of a group of Italian technicians with a long experience in the design and manufacture of machines for textile finishing. Today Danitech consists of two production units in Italy and China, accompanied by a series of Service Centers located around the world. Technology is the engine of innovation, which makes our products efficient and economical and always thanks to technology we try to reduce the consumption of water, energy and chemicals with great attention to the safety of operators. Communication is also a key word in Danitech, we think that it's important to build a relationship of mutual trust with our customers.

Company Description: Established in 1951, FERRARO SPA with more than 70 years of experience is the ideal partner for all those companies looking for excellence and quality in the finishing of knitted and woven fabrics.

Nowadays our production embraces:

- Compactors for tubular and open width knitted fabrics
- Sanforizers compactors for woven, knitted and technical fabrics
- Calenders for tubular knitted fabrics
- Slitting and squeezing line for tubular
- Scouring unit
- Washing unit
- A whole series of complementary machines, modules and services

Ferraro Spa, is now aiming at sustainable development, where the reduction of emissions, the adoption of circular economy processes, the reduction of energy produced from non-renewable sources and the “greening” of all production processes and products have become guiding elements of the company vision."

Company Description:

Global Lubricants Services is an authorized Re-Seller and Channel Partner of Castrol Industrial High Performance Lubricants, catering to the needs of all types of manufacturing industries. We specialize in delivering high-performance lubrication solutions designed to optimize machinery efficiency, enhance reliability, and reduce operational costs across diverse sectors, including textiles, cement, steel, automotive, metalworking, food processing, manufacturing industries and more. With Castrol's cutting-edge products and our expert technical support, we empower manufacturers to achieve superior performance, minimize downtime, and ensure long-term sustainability in their operations.

Range of Lubricants:

Specialty Lubricants

Fully synthetic Ester based Chain oils and PTFE / PFPE based Chain Greases for Stenter chains
PAO and PAG synthetic Gear oils for weaving machines circulation tanks, Dobby and gear boxes
Synthetic Compressor Oils

High performance lubricants and greases for sliding and rolling frictions

High temperature and water-resistant GREASES for high temperature / performance applications i.e. circulation fan, electric motors, bearings and in textile machines bleaching, rope dyeing, sizing, pad steam, rotary printing, high temperature conveyors and other bearing lubrication.

Heavy Load Open Gear Lubricants

Wire Rope Lubricants

High Performance Aerosol Sprays

Fully Synthetic transmission oil for ZF – Transmissions and Allison Transmissions

Conventional Mineral Lubricants

Hydraulic Oils

Gear Oils

Compressor Oils

Heat Transfer Oils

Turbine Oil

Spindle Oil

Diesel and Petrol Engine Oil

Transmission and differential Oils

Multipurpose Greases for multi applications

Non Drop and High temperature Greases

Food Grade Lubricants

NSF and Halal Certified foods grade lubricants

Hydraulic Oils

Gear Oils

Chain Oils

Compressor oil

Food grade High temperature and multi-application greases

Sprays

Greases

Range of grease for normal, high temperature and high performance application in synthetic and mineral base oil along with thickeners i.e.

Lithium Complex

Polyurea Thickeners
Barium Complex
Sodium Complex

In-Organic Compounds
Aluminum Complex
With MoS₂, PTFE, and other solid additives
Multipurpose greases for multiple applications
High temperature and low temperature grasses

HiTech Machinery — Sole Distributor of SCR Screw Air Compressors
HiTech Machinery is the exclusive distributor of SCR Screw Air Compressors, a globally trusted brand developed through a high-tech joint venture between SCR Shanghai Co. Ltd and Anest Iwata Japan. With a strong foundation in advanced Japanese technology, SCR specializes in delivering reliable and energy-efficient compressed air systems for a wide range of industrial applications.

We offer a complete portfolio of SCR solutions, including:

- Permanent Magnet Variable Speed Compressors
- Oil-Free Screw & Scroll Compressors
- Two-Stage Compressors
- Magnetic Bearing Centrifugal Blowers

HiTech Machinery ensures the availability of authentic SCR products, along with professional installation, technical assistance, and after-sales service through our experienced team of engineers and support staff. With regional offices and ready stock facilities, we provide efficient logistics and customer support under one roof.

SCR's innovation and efficiency, combined with HiTech Machinery's distribution network and service capabilities, offer optimized performance for industries such as plastics, power, automotive, textiles, and cement. Our commitment is to deliver dependable solutions that meet the evolving needs of modern industry.

- Providing effective technical services
- Supporting customers in developing new market trends

Itaca Textile:

Itaca Textile commenced operations in 2018, with its first industrial installation at Estampados Prato in Muro del Alcoy, Alicante, Spain. This partnership involved a cutting-edge, 3.3-meter-wide roll-to-roll inkjet textile printer, catering to the global home textile market."

Inks have been designed specifically to satisfy the color gamut of the most demanding designers; the variety of fabrics digitally printed with them explains alone that the itaca HOME water-based inkjet set is now ready to conquer the world.

The itaca inkjet WOM popularity have started to come across the borders and from Europe achieve Pakistan, at Maheen Tex Home textile, Gul Ahmed, Meko Tex, Lucky Textile, Union Fabrics etc.

ESMALGLASS -ITACA GROUP

Address: Ctra. CV-20 Km.2'3, Apdo.194, 12540 Vila-real (Castellón) - SPAIN

SPAIN

Company Description:

IHI Corporation is a comprehensive heavy-industry manufacturer working to create value for customers in four main areas—Resource, Energy and Environment; Social Infrastructure and Offshore Facilities; Industrial Systems and General-purpose Machinery; and Aero Engine, Space and Defense.

IHI's history extends back to the establishment of Ishikawajima Shipyard, Japan's first modern shipbuilding facility, in 1853. The company played a key role in Japan's modernization, including by leveraging its shipbuilding technology in new areas, such as heavy machinery manufacturing, bridge building, plant construction and aero-engine production. In 1960, Ishikawajima Heavy Industries, the successor of Ishikawajima Shipyard, merged with Harima Shipbuilding & Engineering to create Ishikawajima-Harima Heavy Industries. The name IHI Corporation was adopted in 2007 to help strengthen the company's global brand.

IHI is deeply committed to contributing to society through technology, combining diverse engineering capabilities to meet expanding global needs for energy, urbanization and industrialization, and transportation efficiency

Umer Khan

Company Description:

Jeanologia: 30 Years Leading the Transformation of the Textile Industry

Since its foundation, Jeanologia's mission has been to transform the textile industry towards a more ethical, sustainable, and efficient model. The company works closely with brands, retailers, and suppliers on this transformative journey, offering disruptive technologies, innovative software, and a new operational model. Their revolutionary solutions, such as laser technology, G2 ozone, Dancing Box, e-flow, H2Zero, and ColorBox, have redefined the standards of garment design and finishing, eliminating polluting processes and significantly reducing the use of water, energy, and chemicals. These advancements have saved millions of liters of water and eliminated the use of harmful substances, materializing their vision of a truly sustainable textile industry.

In 2025, Jeanologia celebrates its 30th anniversary, marking a legacy of three decades of sustainable innovation. From the introduction of their laser technology in 1999, which transformed denim finishing, to their current challenge of implementing their sustainable dyeing process, the company has been a pioneer in offering solutions that benefit the environment and optimize operational costs. Looking to the future, Jeanologia invites all actors in the textile industry to join their Mission Zero initiative: dehydrating and detoxifying garment production globally, eliminating the use of water and toxic substances.

Company Description:

Precision Textile Solutions aims to revolutionize the texture of Pakistan's manufacturing industry with creativity and growth. We try to support local manufacturers and designers by equipping them with the tools to match global standards in the apparels market through world-class cutting-edge technologies and their introduction and distribution.

Pakistan is committed to the growth and success in the textile industry, as has been displayed through partnerships with global giants Adidas, Levi's, Zara, H&M, Nike and local clothing brands including Khaadi, Sapphire, and Junaid Jamshed.

It is our vision to bring about a positive change in the perception of the Pakistan textile industry at the global level through development, heritage, and technological advancement.

In doing so, we adhere to supply chain transparency, regulatory compliance, and ethical business practices to be assured of our values of high standards, sustainability, and ethical fashion. In its future roadmap, Precision Textile Solutions would be one of the front runners in the development of Pakistan to a global center for textiles.

Silver Strings Textile (Pvt) Limited:-

Silver Strings Textile (Pvt) Limited has established in 1994 as a Leading Textile Agent for export of Cotton Yarn, P/C Yarn, Sulzer / Air jet all kind of Fabrics including Grey & Finished & import of Raw Cotton to fulfill the requirements of Pakistan Industries.

We are also representing various Worlds renowned Spinning & Weaving Textile Auxiliary Machines / Spare Parts Manufacturers in Pakistan market & sold various products to numbers of customers. **The Details of our Principles are as follows: -**

1- LAKSHMI CARD CLOTHING MANUFACTURING CO.PVT. LTD.

INDIA:-

Company was established in 1960 with technical and financial collaboration with a leading Swiss Company & manufacturing full range of Card Clothing & Card Room Accessories as per the International standards.

2- RIMTEX INDUSTRIES INDIA:-

As a Company that keeps abreast of the international technological advancements, Rintex now offers reliable & sturdy material handling equipment for the Textile Industry.

The Products ranges are Spinning Sliver Cans (Ultima, Duo & Sumo Model) , Rectangular Cans, Xtensa Long Life Steel Ring, Ring Travellers, Steaming Trolley, Castors & Crates.

3- SABAR MACHINE TOOLS (PVT) LIMITED INDIA:-

Sabar s status of pioneer with experience and expertise of nearly four decades in Textile Industry. The Products ranges are Automatic Servo / Twin / single Cots Grinding Machine, Hydraulic Mounting Demounting Machine, Clearer Roller Cleaner, Arbour Cleaning Machine, Greasing Machine & Degreasing Machine.

4- ELGI ELECTRIC INDUSTRIES LIMITED INDIA:-

Company has Technical collaborations with World leaders M/s Ernst Jacobi GmbH, Germany. The Products ranges are Yarn Conditioning Machine, Over Head Traveling Cleaner for Spinning & Weaving Units & Central Vacuum System etc.

5- ELGI ULTRA INDIA:-

Company having specific focus Engineering & Rubber and been in business for over 40 years. The Products ranges are Spindle Tape, Spindle Tape Skiving Machine, Battery Operated joining Machine, Spindle Tape joining Press & Spindle Tape joining adhesive.

6- PRASHANT GROUP OF COMPANIES (PRASHANT WEST POINT) INDIA:-

Prashant Group was established since 1975, committed to give World class Products to modern Weavers. The Products ranges are Sectional Warper Machine, Sizing Machine, Direct Warper, Selvage Warping Machine, Warping Creels, Ferber Weaving Handling Trolleys.

7- SILVER TECH BTS / RTS TRANSPORTATION SYSTEM:

SILVER TECH works for total transportation system with one step advanced and perfectly developed factory automations.

SABAR is a world class Next-Generation Manufacturer and Exporter of Spinning Roll Shop Machinery since 1969, with 3000+ machines' installed across 39 countries. Many technocrats have been working here for many years, leaving no stone unturned in their quest to

make the most advanced and marvellously engineered Spinning Roll Shop Machinery for the Textile Spinning Industry. We have developed one groundbreaking solution after another to get closer to realising our vision of accurate and effective Spinning Roll Shop Machinery. Besides, SABA is the only company in the world that is completely focused on developing Spinning Roll Shop Machinery and always strives to provide 100% relaxation to the Textile Spinning Industry.

ELGI ELECTRIC INDUSTRIES LIMITED INDIA

Address: 737-D, Green Fields, Coimbatore,

INDIA

Tel-1: ++91-422-2311711

Fax: ++91-422-2311711

Email: elgielectric@eeh.saraelgi.com

Website: www.elgielectric.com

Contact Person: Azhar Taj Khan / Assad Taj Khan

Company Description: ELGI Electric is a renowned name in the industry. With over **50 years of experience**, the company has been providing engineering solutions for the Textile and Motor Industries. The ability to comprehend customer needs and to evolve customized solutions is what makes it stand apart. The company has always been at the forefront of technological advancements and has designed and developed products to suit the futuristic requirements of the industry. ELGI Electric pioneered the concept of Automatic Over Head Traveling Cleaners (OHTC) in India. Technical tie-ups with world leaders in Germany

(Festo, Jacobi & Welker) and ARGUS, USA has helped ELGI Electric adopt latest technologies and reinforce the status of ELGI Electric as a quality-conscious manufacturer. The company's product portfolio comprises of Yarn Conditioning Systems, Roving Bobbin Transport systems, Metal and Spark

Diversion Systems, Centralised Waste collection systems and Pnumafil waste collection systems just to name few.

The company's products are a testimony to its technological prowess. Over 50 million spindles spread across the globe, are spinning high quality yarn with ELGI Electric-made OHTC and other products. The company offers customized solutions to every application. Be it spinning or weaving, its range has just the right product for every requirement and application, always ensuring that ELGI's customers have that extra competitive edge.
