Welcome

We are very delighted to welcome you to the first Textiles Recycling Expo, the biggest ever focused gathering of industry leaders, innovators and sustainability advocates who are shaping the future of textiles circularity. As the global textile industry faces mounting pressure to reduce waste and embrace more sustainable practices, this event serves as a crucial platform for collaboration, innovation, and progress.

The Textiles Recycling Expo brings together key stakeholders from across the supply chain, including waste managers, recycling technology providers, recyclers, manufacturers, policy makers and fashion and retail brands. Over the course of this event, you will gain critical insights into the latest developments in collection infrastructure, sorting and recycling technologies, closed-loop solutions, regulations and real-world projects that are shaping the future of textile waste management.

Hear from more than 40 experts from across the supply chain! Immerse yourself in our comprehensive conference programme, featuring a range of informative seminars as well as expert-led panel discussions, all providing excellent insights and analysis of this fast-changing market.

This is a pivotal moment for the industry, and your participation is instrumental in driving meaningful change. We encourage you to take full advantage of the networking opportunities, expert-led discussions, and cutting-edge solutions on display. Together, we can accelerate the transition towards a truly circular textiles economy.

Thank you for being part of this vital conversation.

Enjoy the show!
