Welcome Address Italian Ambassador

WELCOME MESSAGE BY DANTE BRANDI, AMBASSADOR OF ITALY IN SINGAPORE AND BRUNEI DARUSSALAM

It is with great satisfaction that I welcome the Italian participation at ITMA ASIA + CITME 2025, which this year returns to Singapore from October 28 to 31, after several editions held in Shanghai. The decision to host the event once again in this important Asian hub highlights Singapore's central role in the global technological and industrial landscape.

The fair takes place in a year that is particularly significant for us: 2025 marks the 60th anniversary of diplomatic relations between Italy and Singapore, an occasion that celebrates a long history of cooperation and friendship between our two countries, based on shared values and complementary visions in the fields of technology, innovation, and sustainability.

The Italian participation, coordinated by ACIMIT in collaboration with ITA, includes over 100 companies, of which 52 are grouped under the National Sector Group and 48 participate independently. This number confirms the strength, vitality, and relevance of the Italian textile machinery sector, a global reference point for quality, innovation, and reliability.

In 2024, Italian textile machinery production reached 2.1 billion euros, with over 1.8 billion euros destined for export. Italy today exports textile machinery to around 130 countries, with a strong presence in Asia, which accounts for 41% of total sector exports, followed by the EU (20%), non-EU Europe (14%), and North America (10%).

Despite a complex global context marked by geopolitical uncertainties and logistical challenges, the Italian sector continues to stand out thanks to its ability to combine tradition and innovation, with particular attention to environmental sustainability, digitalization, and energy efficiency.

The 2025 edition of ITMA ASIA + CITME 2025 represents a strategic opportunity for our companies to strengthen dialogue with Asian markets, consolidate commercial relationships, develop new collaborations, and reaffirm Italy's role as a leading technological partner in the textile sector.

I would like to express my sincere appreciation to ACIMIT for its outstanding coordination of the Italian companies, and to ITA for its continued efforts in promoting and supporting Italy's presence at this important event.

*Dante Brandi, Ambassador of Italy in
Singapore and Brunei Darussalam*

To all participating Italian companies, I extend my warmest wishes for a successful participation full of new opportunities. I am confident that this edition of ITMA ASIA + CITME 2025 will further strengthen the international projection of our industrial system, in line with the solid bond between Italy and Singapore.

Dante Brandi

Welcome Address ITA Singapore Trade Commissioner

It is with great pleasure that I welcome all Italian companies participating in ITMA ASIA + CITME 2025 in Singapore. This prestigious event represents an extraordinary platform for showcasing the excellence, innovation, and tradition of the Italian textile machinery industry.

In 2024, Italian textile machinery production reached a value of € 2.1 billion, of which over €1.8 billion — around 86% — was exported to more than 130 countries worldwide. Asia remains the leading destination, accounting for 41% of exports; these figures confirm the strong international footprint of Italian manufacturers and their ability to respond to the evolving needs of the global textile industry

*Giorgio Calveri, Director
Italian Trade Commission Singapore*

The Italian presence at ITMA ASIA + CITME 2025 — coordinated by ACIMIT with the support of the Italian Trade Agency — brings together 100 companies under the National Sector Groups as well as independent exhibitors.

This collective participation is a testimony to Italy's commitment to strengthening cooperation and partnerships with Asian and global textile industries.

I invite all visitors to explore the Italian Pavilion and discover first-hand the technological excellence and innovative spirit that continue to define Italian textile machinery. I am confident that this edition of ITMA ASIA + CITME 2025 will offer new opportunities for fruitful collaboration and growth.

We look forward to welcoming you and to sharing Italy's vision for the future of textile innovation.

Giorgio Calveri

Welcome Address ACIMIT President

WELCOME GREETING MESSAGE BY MARCO SALVADÈ, ACIMIT PRESIDENT

The next edition of ITMA ASIA + CITME, Asia's most prominent textile machinery exhibition, will be held in Singapore from 28 to 31 October 2025. The 2025 edition will be, as the previous ones, a global showcase for all textile machinery manufacturers who will exhibit. Singapore is a hub that will attract visitors from all over Asia, expanding business opportunities for exhibitors.

At ITMA ASIA + CITME visitors will get a look at the high quality and technological level of Italian textile machinery. Our textile machinery industry is a leader: 300 manufacturers employing over 12,000 people, producing machinery for a value of 2.1 billion euros, fully 86% of which are exported to over 100 countries.

The success of Italian textile machinery industry is built on the balance between tradition and innovation: a centuries-old heritage of skills and creativity combined with the ability to deliver quality and cutting-edge technological solutions, especially on hot topics in the textile sector such as sustainability, automation and digitalization.

In Singapore, around 100 Italian exhibitors will showcase their latest innovations, confirming the strong partnership with Asian textile manufacturers. With over 40% of Italian textile machines exported to this area, ITMA ASIA + CITME Singapore offers the chance to further strengthen Italy's role as the ideal partner for companies aiming at competitiveness through sustainability and digitalization.

I wish everyone exhibiting and visiting ITMA ASIA + CITME Singapore a great success!

*Marco Salvadè
ACIMIT President*

Italian Trade Agency - ITA

ITA - Italian Trade Agency is the Governmental agency that supports the business development Italian companies abroad and promotes the attraction of foreign investment in Italy. With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion, and training to Italian small and medium-sized businesses. Using the most modern multi channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

The network. Through its headquarters in Rome, an office in Milan, and a global network of 69 offices and 18 local branches in 74 countries, linked to Italian embassies and consulates, the Italian Trade Agency provides information, assistance, promotion, training, and cooperation in the industrial, consumer goods and services sectors. The Italian Trade Agency collaborates with Italian Regions, Chambers of Commerce, Industry and Trade Associations and other public and private organizations.

Every year, ITA worldwide offices carry out hundreds of promotional projects and provide personalized services and assistance to thousands of Italian companies.

The Italian Trade Agency also assists and supports foreign companies that want to establish or expand business and trade relations with Italian companies or to invest in Italy. The main services offered to Italian companies by the Italian Trade Agency to increase the flow of exports and investments between Italy and the rest of the world are:

- information and assistance
- identification of commercial partners visits to international trade shows and industrial districts
- support for investments abroad

ACIMIT - Association of Italian Textile Machinery Manufacturers, represents an industrial sector that comprises roughly 300 manufacturers (employing around 12,500 people), which produce machinery for an overall worth of around 2.1 billion euro, of which 86% are exported in about 130 Countries, mainly in Asia and Europe. Creativity, sustainable technology, reliability and quality are the hallmarks that have made Italian textile machinery worldwide leaders and the technological level of its production is considered of the highest standard by the competitors themselves.

Italian textile machinery manufacturers meet the full spectrum of industry needs (spinning, weaving, knitting, dyeing, finishing, printing and laundry machines). A lot of them produce machines for technical and innovative textiles too, maximizing the flexibility and versatility that characterize Italian supply.

Italian textile machinery industry: figures

In Italy there are approximately **300 companies** producing textile machines and related accessories, employing over **12,500 workers**.

The value of Italian production is about **2.1 billion euro**.

Reasons for a world success

Italian companies involved in the sector are small-size companies, deeply committed to R&D activities, looking for close cooperation with customers to create new opportunities and suitable solutions.

The ability to understand the needs of potential customers enables Italian companies to turn them quickly into dedicated machinery and devices which give rise to new high value-added market niches (such as the technical textiles) in the world textile market, both as regards economical and technological aspects.

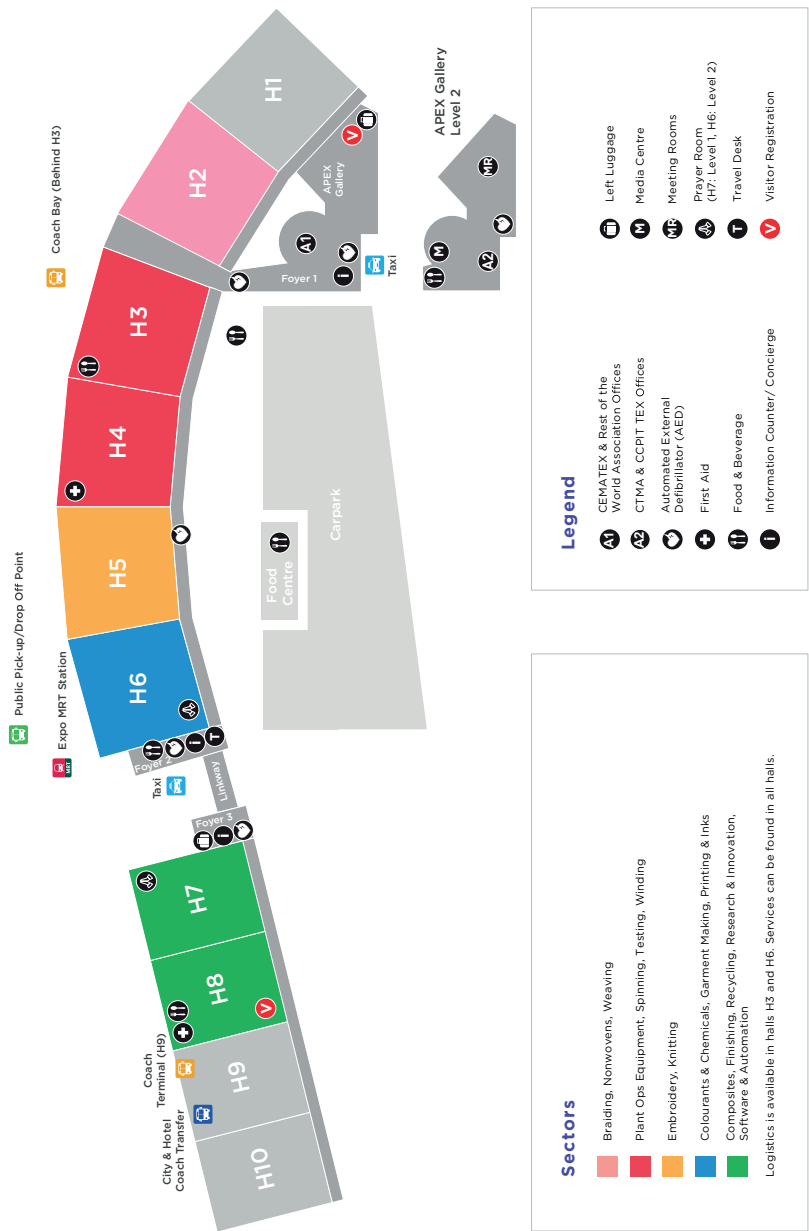

Italian textile machinery companies are placed in areas of ancient textile tradition, where an exchange of experience with end users offers a strong impetus to the constant technological upgrading of machinery. Textile clusters are located in Northern and Central Italy: Bergamo, Biella, Brescia, Como, Milan, Prato, Vicenza.

The main characteristics that distinguish Italian textile machinery sector are:

- **skilled workforce** that ensures a high quality of products;
- **the dimensions of Italian companies** that allow a quick response to the need of each customer;
- **the flexibility and versatility** ensure a customized production for satisfying the needs of each customer;
- **the high technological level** of the supply, due to the constant attention paid by Italian companies to the R&D activities and to innovative solutions.
